Dear Vicki and Jim,

I left my stationary up in the cabin last week and so Duckie is good for something. Now we are working on putting the address labels on the envelopes. Yesterday Gil and Stella and I all worked over here. We will work again this afternoon. Gil works during the lunch hour at the Inn. Aunt Stella is playing golf this morning and I am going to play bridge.

I caught nine fish Saturday. Dad caught one so we had a good trout breakfast. Our mountain streams aren't polluted yet so the fish are O.K.

The 1960 Bellevue High class is having its tenth class reunion this month. I have had calls asking about you Jim so I am happy to tell about you two and I will send you the book when it is ready telling all the information about the class. So far Ruthie hasn't been able to talk Jack into attending.

Gary just loved hearing from you and getting the brochure on the Civil War. He wants to get back to see you so much.

Gregg simply hates the Marines. He even feels like deserting to Canada. He was leader of his group but soon was replaced because he didn't yell at the boys. It will be interesting to see how he feels about it when he gets out. Many of them change by then and think it is great.

you will be glad when fall comes I am sure. That hot weather back there is terrible.

It has been real nice here with one week of rain. Today it is

supposed to get up to 85 but it is always real downstairs.

Jeannie is expecting another baby, it is due next March.

Mary and I played duplicate last Thursday night. She really enjoyed it and is anxious to go again.

I have to leave for bridge now so will write more later.

Dad is going to school again this week.

Love,  
Mom.
